Search and Icon Formats

The table below shows all the standard search and icon formats. Search and icon formats are currently based on a combination of MARC fixed fields using positionally defined data elements found in the Leader and Control fields including MARC Record Type (LDR 06), Bibliographic Level (LDR 07), Item Form (008, position 23), and various Sound and Videorecording formats.

In some cases they vary slightly, with the icon format being more restrictive. This is so that things such as a search for "All Books" will include Large Print books yet Large Print books will not show both a "Book" and "Large Print Book" icon.

"Icon Format Only" portions of the definition are italicized and in square brackets: [*Icon format only data*]

Record Type (LDR 06)

a: Language material
c: Notated music
d: Manuscript notated music
e: Cartographic material
f: Manuscript cartographic material
g: Projected medium
i: Nonmusical sound recording
j: Musical sound recording
k: Two-dimensional nonprojectable graphic
m: Computer file
o: Kit
p: Mixed materials
r: Three-dimensional artifact
t: Manuscript language material
